## **ABOUT**

From a small store in Amsterdam in the 70's to a global operating wholesale company nowadays; the story of CNB Enterprises has always been one of Dutch entrepreneurship and love for Japanese culture.

Until this day the symbiosis of the two inspires the very essence of the company. Combining the best of both cultures into a family run enterprise where loyalty, quality and long-term business relations are valued equally to commerciality.

The modern day CNB Enterprises is a market leader operating in three divisions: Home & Living, Restaurant & Kitchen and Healthcare.

CNB's products can be found in the world's most renowned stores, such as Lafayette (France), Magasin du Nord (Copenhagen), Ahlens (Sweden), Stockmann (Scandinavia and Baltics), Kaufhof and KaDeWe (Germany), La Rinascente (Italy), Crate & Barrel (USA) and Bijenkorf and Hudson's Bay (The Netherlands) as well as many other well regarded national and international (concept) stores and retail chains.

## **HOME & LIVING**

Since 2010 CNB Enterprises designs and develops the globally distributed tableware brand Tokyo Design Studio. A brand inspired by Japanese culture and praised for its refined contemporary designs and high quality standards.

## **RESTAURANT & KITCHEN**

From traditional Japanese tableware to essential equipment for the modern fusion kitchen, CNB Enterprises delivers all necessities for the Oriental inspired cuisine.

## **HEALTHCARE**

Oriental medicine has a tradition of over 2000 years. CNB distributes the most renowned healthcare products and brands originating from this esteemed tradition.

Founded in 2010 Tokyo Design Studio creates high quality tableware inspired by both Japanese tradition and the eclectic international lifestyle of modern day Tokyo.

Almost all our products are traditionally produced in Japan and available across the globe.

With design teams located in both The Netherlands and Japan we aim to create a unique and constantly evolving signature where East meets West and tradition meets the new. Respecting centuries of porcelain and pottery heritage, we constantly look for unexpected perspectives that help us create the tableware of today and tomorrow.

## **TWO CULTURES**

The creative cross-pollination between Japan and The Netherlands dates back to the 16th & 17th century when inspired by porcelain imported from the Orient the Dutch developed Delft Blue, which over time became so popular it sparked its own artistic interpretations from Japan in return. With Tokyo Design Studio we celebrate these cross-cultural collaborations of the past and add a new chapter by giving a unique European twist to traditional Japanese pattern and tableware design.

## **TRENDS & LIFESTYLE**

Modern day Tokyo is one of the fashion and lifestyle capitals of the world, an innovative melting pot where trends are combined and born. Next to reinterpreting classic Japanese designs, Tokyo Design Studio takes inspiration from these trends to develop unique contemporary lines, such as our Indigo and Shibori line based on the Ikat trend visible in fashion.

## **ARTISANAL PRODUCTION**

Most of our products are made in Japan via an artisanal method perfected over the last 400 years. Our products are baked twice, then decorated one colour at a time, glazed and baked again. Throughout the process a meticulous quality control is applied making sure each Tokyo Design Studio product is of the highest quality.

# SENDAN TOKUSA

Based on the traditional Japanese tokusa (stripes) theme, our designers created this timeless collection with a striking radial pattern in fine blue lines. The sturdy porcelain is robust, but not heavy, and a joy to use every day. The dramatic yet soothing style makes the Sendan Tokusa collection an instant favorite.

# KIKU & SHIBORI

The Kiku & Shibori line is ideal for those who want to mix and match but also strive for visual harmony. While the Kiku pattern is inspired by chrysanthemum flowers, the Shibori bowls are derived from a Japanese manual resist dyeing technique, resulting in special color effects in lovely bright indigo blue.

# SEIGAIHA

In a rich indigo on crisp white, the Seigaiha collection features beautifully detailed waves in a striking pattern. They are the traditional lucky motif in Japanese symbolism, representative of the boundless ocean, the flow of energy and good fortune. Like the other 'fine patterns', Burashi and Fleur the Ligne, Seigaiha pieces are made from high quality Japanese porcelain with an elegant matte finish.

# FLEUR DE LIGNE

An exquisite pattern of flowers and foliage in indigo and fresh white embellishes each piece of our Fleur de Ligne collection. The traditionally shaped porcelain bowls and plates have some relief, which, together with a matte finish, gives them a rich and luxurious look and feel. They lend an elegant note to any dining room – on their own or layered with other pieces from the Fleur de Ligne, Burashi or Seigaiha collections. Graceful and timeless, they will make a welcome addition to your tableware collection.

# NIPPON BLACK

Nippon Black combines the best of two worlds. The elegant shapes, decors and high quality porcelain are traditional Asian, while the clean black-and-white is inspired by the minimalism of contemporary Scandinavian design. With a host of different decors to combine and play with, they add a subtle surprising touch to any interior style.

# ORIBE

Oribe is a Japanese style of pottery distinguished by irregular shapes and distortions. Green is the typical colour of Oribe ware: many Japanese chefs still use Oribe green for their cuisine because it's visually complimentary for traditional foods.

Our designers developed Blue Oribe on special request to create an authentic look with a modern twist.

# MOKUZAI

These dishes and bowls are not what they seem: made of porcelain, but with the warmth of wood! Hygienic and decorative at the same time. Create a playful effect by using the various forms, two different wood colors and glaze techniques - matt and gloss - all at the same table. Ideal for the presentation of a robust meal or a refined exotic dish.

# SHIKI

The traditional Japanese artwork on the Shiki plates and bowls depict the ever-inspiring beauty of the four seasons: fans in light blue for spring; chrysanthemum flowers for summer; umbrella's for autumn and silvery carps for winter. Their subtle shades of blue, red and grey complement each other beautifully for mixing and matching on your dinner table... or choose your favorite season and enjoy it all year long!

Aderia Glass derived from the name of Adriatic Sea, known as one of the birthplace of the glass, started in Japan as a manufacturer of glass bottles in 1819. In the 1960s we started producing glass tableware and named the brand "Aderia" Since then, we have produced long life design products, believed that only honest and timeless design would be never thrown away, and last beside of people forever.

# JAPANESE TEA CEREMONY

The Japanese tea ceremony is called Chanoyu, Sado or simply Ocha in Japanese. It's a choreographic ritual of preparing and serving Japanese green tea, called Matcha, together with traditional Japanese sweets to balance with the bitter taste of the tea. Preparing tea in this ceremony means pouring all one's attention into the predefined movements. The whole process is not about drinking tea, but is about aesthetics, preparing a bowl of tea from one's heart. The host of the ceremony always considers the guests with every movement and gesture. Even the placement of the tea utensils is considered from the guests view point (angle), especially the main guests called the Shokyaku.

**Niigata**  
Aogami steel | Buffalo Horn Ring | HRc 62 Hardness Rockwell C scale | Made in Japan | Slanted back

Aogami steel: this type of steel is made by adding chromium and tungsten to Shirogami (White Steel), which makes the material more durable and provides corrosion resistance. it is mostly used for making high-grade Hocho (kitchen knives) and outdoor knives. The slant helps to control the knife very well. "Tojiro" is very kind and considerate to its users.

## Slicers & spare blades

The most popular Japanese vegetable slicers. No kitchen should be without one of these affordable and easy-to-use tools! Adjustable blade makes slicers of varying thickness, and fine, medium, and coarse replaceable blades make three different size julienne slices.

A sharp sliding blade makes exceptionally thin sheets, fine julienne slices and decorative fishnets from hard vegetables like daikon radishes, carrots, potatoes and beets. You can also make an unusual "fish caught in a net" pattern.

The Asahi rubber cutting board is the hardest cutting board offered. Despite its hardness, it is forgiving on sharp knife edges resulting in a longer lasting edge retention. It doesn't scratch easily and is very popular in sushi bars. Health departments have banned wooden cutting boards in commercial kitchens due to how wood absorbs water and forms bacteria. The Asahi rubber cutting boards resembles wood in color, texture and softness making them very aesthetically pleasing and useful in kitchens.

Synthetic (polyethylene) cutting surface that is forgiving and durable yet slightly harder than Hi-Soft. Resembles wood in color. These cutting boards are increasingly popular in busy kitchens, due to its durability and cost effectiveness.

# BINCHOTAN

Binchotan is a traditional charcoal of Japan. It dates to the Edo period, when during the Genroku era, a craftsman named Bitchu-ya Chozaemon began to produce it in Tanabe, Wakayama. The raw material is oak, specifically ubame oak, now the official tree of Wakayama Prefecture. Binchotan is a type of Lump charcoal or Hardwood charcoal. The fineness and high quality of binchotan are attributed to steaming at high temperatures (about 1000 degrees Celsius). Although it is often thought that binchotan burns hot, it actually burns at a lower temperature than ordinary charcoal but for a longer period, making it preferable to a number of Japanese chefs. Because it does not release smoke or other unpleasant odours, it is a favorite of unagi (freshwater eel) and yakitori (skewered chicken) cooks.
